Safety Instructions

| **Safety Symbols** | **Power** | **Installation** | **Using and Cleaning** |

▶ Safety Symbols

※ Make sure to follow the directions below to prevent accidents and damage to the product.

⚠️ **Warning**   Failure to follow the accompanying directions may lead to serious injury or death.

⚠️ **Attention**   Failure to follow the accompanying directions may lead to minor personal injury or property damage.

| **Safety Symbols** | **Power** | **Installation** | **Using and Cleaning** |

▶ Power

※ The images here are for reference only, and are not applicable in all cases (or countries).

⚠️ **Warning**

▶ **Insert the power plug correctly until it is firmly in place.**

   ● Failing to do so, may cause fire.
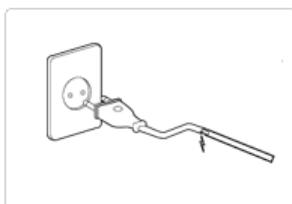

▶ **Do not use a damaged power plug, cord or outlet, as this may cause electric shock or fire.**

▶ **Do not touch the power plug with wet hands, as this may cause electric shock.**

▸ **Do not connect more than one appliance to a single outlet, as an overheated outlet may cause fire.**
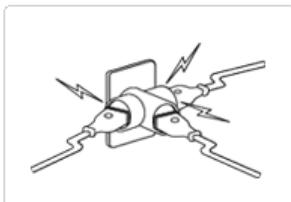

▸ **Do not use force to pull the power cord. Don't place anything heavy on the power cord, as this may cause electric shock or fire.**

- Failing to do so, may cause electric shock or fire.

▸ **Make sure to turn the power off and disconnect the power plug from the outlet before moving the product. Make sure to disconnect the connection cables from other devices as well.**

- Moving the product without disconnecting the power cord may damage it while moving, and may cause electric shock or fire.
 Attention

▸ **Hold and pull out the plug by its body when disconnecting it from the outlet, as pulling the plug out by the cord may cause it to be damaged.**

- Failing to do so, may cause fire, or the product may not turn on normally.

▸ **Ensure that the power plug is disconnected before cleaning the product.**

- Failing to do so, may cause electric shock or fire.
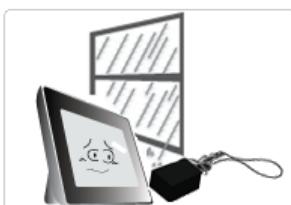

▸ **Keep the product away from places exposed to oil, smoke or moisture; do not install inside a vehicle.**

- This may cause a malfunction, electric shock or fire.
- In particular, avoid operating the monitor near water or outdoors where it could be exposed to snow or rain.

▸ **Do not install the product near any heating appliance.**

- There is a risk of fire.

Installation

⚠ Warning

▶ **When installing the product on a cabinet or shelf, do not let the front end of the product project beyond its front edge.**

- Failing to do so, may cause the product to fall, resulting in a product malfunction or personal injury.
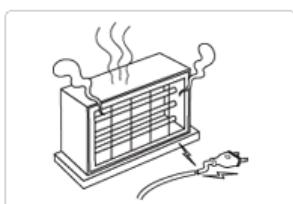

▶ **Do not place the power cord near a heater, as the power cord may melt, causing electric shock or fire.**

▶ **Do not install the product in a car or a location exposed to oil, smoke, moisture, water, or rainwater.**

- Any contact of these materials with the product may cause electric shock or fire.

▶ **Disconnect the power plug when there is thunder or lightning.**

- Failing to do so, may cause electric shock or fire.

⚠ Attention

▶ **Place the product down gently when installing it.**

- Failing to do so may cause product damage or personal injury.
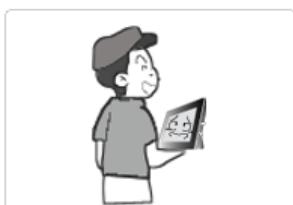

▶ **Avoid dropping the product when moving, as this may cause product damage or personal injury.**

▶ **Do not install the product in a location easily reached by children.**

- As the product may fall and cause personal injury.

Using and Cleaning

Warning

▸ **Do not insert any metal objects such as forks, wire, or gimlets, or flammable items such as paper or matches into the ports at the back of the product, as this may cause electric shock or fire.**

- If water or any foreign substance enters the product, make sure to turn the product off and disconnect the power plug from the outlet, and contact a **service center**.

▸ **Never disassemble, repair, or modify the product yourself.**

- If you need to repair your product, contact a **service center**. An attempt at repairing this product may cause electric shock or fire.

Attention

▸ **If you hear a strange sound, smell anything burning, or see smoke, disconnect the power plug immediately and contact a service center.**

- Failing to disconnect the power plug may cause electric shock or fire.
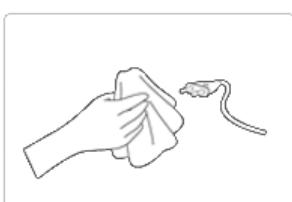

▸ **Always remove dust and water from the pins and connections of the power plug.**

- Failing to do so may cause electric shock or fire.

▸ **When cleaning the product, first disconnect the power plug and clean it with a soft, dry cloth.**

- Do not use any chemicals such as benzene, alcohol, thinners, mosquito repellant, aromatic, lubricant, detergent or wax.

▸ **When not using the product for a long time, make sure to disconnect the power plug.**

- Heavy accumulated dust may cause electric shock or fire.

▸ **If the product needs to be installed in a location that doesn't satisfy general conditions, make sure to contact one of our service engineers about the installation as the product may encounter serious quality problems due to its environment.**

- This refers to locations exposed to conditions such as heavy fine dust, chemicals, high or low temperature, moisture, or when the product needs to be used continually without a break over a long time.

▸ **If the product has been dropped or the product casing is damaged, turn it off and**
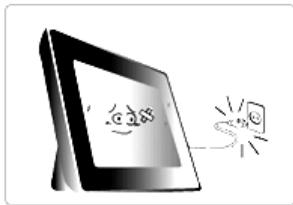

disconnect the power plug.

- Using the product without verifying that it has not been damaged may cause electric shock or fire. Please contact a **service center**.

Correct Disposal of This Product
(Waste Electrical & Electronic Equipment) - Europe only

(Applicable in the European Union and other European countries with separate collection systems)

This marking shown on the product or its literature, indicates that it should not be disposed with other household waste at the end of its working life. To prevent possible harm to the environment or damage to health from uncontrolled waste disposal, please separate this from other types of waste and recycle it responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

⋮ Using

※ If no button is operated for ten (10) minutes, the screensaver starts to protect the monitor.
However, the screensaver does not start in the slideshow status.

※ This product is in a touch type. If you touch the button part on the right of the product lightly, the button light is turned on.
When the button light is turned on, you can then operate each button's menu.

| **Usage Guide** | | **Photo** | | **Clock** | | **Settings** | |

▶ Usage Guide

➡ Direct Functions

Button	Description
MENU	Enters or exits a menu. Hold the MENU button down for more than five (5) seconds. All the lights of the buttons will blink twice and the button lock function will be activated. To clear the button lock function, hold the MENU button down again for more than five (5) seconds.
▲ , ▼ , ◀ ▶	Moves around the items and adjusts a value.
⊡	Selects a function you want to use.
↺	Returns to the previous screen. ※ Hold down this button for two (2) seconds to return to the Main screen.
⊡	Starts a slideshow. When playing a slideshow by pressing the [⊡] button, the photos in the location of the last played photo are played. If the photos in the location of the last played photo have been removed, they are automatically searched for and then played in a slideshow.

➡ Screen Status Indications

Display	Description
⊞	Displayed when a USB device is connected.
⊟	Displayed when an SD/MS memory card is connected.

| **Usage Guide** | | **Photo** | | **Clock** | | **Settings** | |

▶ Photo

➡ When selecting a folder

Menu	Description
Open	Opens the selected folder.
Copy	Copies the selected folder.
Delete	Deletes the selected folder.

▣ The menu displayed when selecting a thumbnail

Menu	Sub Menu Description
Start Slideshow	Starts a slideshow
Copy	Copies the selected file to a different storage device. (Activated when a storage device is connected.)
Copy All Files	Copies all files to a different storage device. (Activated when a storage device is connected.)
Delete	Deletes the selected file.
Delete All Files	Deletes all files.
Set as Background	Sets the selected image as the background of the main screen. At this time the setting mode for the background is changed to Custom mode automatically.

※ When copying a photo from an external memory storage device (SD/MS, USB memory) to the Frame Memory, if the [Settings]-[Options]-[Frame Memory Copy] is set to the [Resized], the size (screen quality) of the photo is automatically reduced before saving so that it can be displayed with fit to the screen of your digital photo frame and the EXIF (camera related information) saved in the photo is removed. Thus, make sure to use the photos saved in the Frame Memory only with the digital photo frame.

※ It may take a long time if a lot of files are copied at a time.

▣ Slide Show

※ If you press the Menu button, the menu of the selected item is displayed on the screen.

※ Only photos with a resolution of less than 8000 (width) * 8000 (height) pixels can be displayed on the screen.

Menu	Sub Menu	Detailed Menu

Description

	◆ English, Deutsch, Español, Français, Italiano, Nederlands, Polski, Русский,
Language	Português, Svenska, Türkçe, 简体中文, 日本語,한국어

You can select the product language.

Brightness ◆ 0~100

Adjusts the brightness of the screen.

Direct Slideshow ◆ Off, On

Connect the external storage, and the slide-show starts with its pictures.

Options

Auto Fit Portrait Photo ◆ Off, On

If Digital photo frame is laid horizontally, the portrait picture automatically turns around to be able to show the whole picture in Digital photo frame.

Frame Memory Copy ◆ Original Size, Resized

When copying a photo from an external memory storage device (SD/MS, USB memory) to the Frame Memory, if the [Settings]-[Options]-[Frame Memory Copy] is set to the [Resized], the size (screen quality) of the photo is automatically reduced before saving so that it can be displayed with fit to the screen of your digital photo frame and the EXIF (camera related information) saved in the photo is removed. Thus, make sure to use the photos saved in the Frame Memory only with the digital photo frame.

Starting Mode ◆ Home, Last Mode, Slideshow

You can select the first screen to be displayed when power is turned on.

Screen Saver ◆ Slideshow, Clock

You can select the screensaver type.
If no button is operated for ten (10) minutes, the screensaver starts to protect the monitor.

Home Background ◆ Default, Custom

Preference

You can set the background of the main menu screen.

Auto Picture On/Off ◆ Activation, Hour, Minute, am/pm, Repeat

When the time reaches the [Off Time], other operations are stopped and the screen is turned off. When the time reaches the [On Time], the screen is turned on and the previous operating status persists.
If the screen is turned off as the time has reached the [Off Time], press any button except the Power button to display the screen again.

　※ If the product is being used as a Mini-Monitor or a Mass Storage device connected to your PC via a USB cable, the screen will not be turned off even if the time reaches the Off Time.

	You can update the product by using a USB memory stick or memory card
Firmware Update	(SD/MS).
	For the latest firmware file, visit **www.samsung.com**.

Update/Reset

Reset Settings ◆ Yes, No

Initializes the settings to the factory defaults.

Product Information ◆ Model, Firmware Version

You can check the product information.

◾ **I want to update firmware.**

01 Preparations

- 01 Digital Photo Frame
- 02 Firmware update file.
- 03 USB memory card or external memory devices(SD/MS)
- 04 Please visit **www.samsung.com** for the latest firmware update.

02 Connect USB memory card to PC

- 01 If you are ready, connect the USB memory card to your PC.
- 02 Copy the firmware update file you downloaded to the USB memory card.
- ※ (Make sure to copy the firmware update file to the root directory.)

03 Connect USB Memory Card to Digital Photo Frame

- 01 Remove the USB memory card from your PC, and connect it to your Digital Photo Frame.
- ※ If your Digital Photo Frame is off, turn it on.

04 Updating

01 Select [Firmware Update] on the [Settings]-[Update/Reset] page.

03 The update progression is displayed on the screen.
When the update finishes, turn your Digital Photo Frame off, remove the USB memory card,
and turn your Digital Photo Frame on again, for maximum safety.

※ Do not remove the USB memory card during the update operation.
Do not press any key during the update operation.
Do not insert any other card during the update operation.
Do not turn your Digital Photo Frame off during the update operation.
You can identify whether the update operation has finished successfully or not by checking the
firmware version of your Digital Photo Frame is changed to the version of the firmware update.

Applications

The Digital Photo Frame not only allows you to appreciate photos but also provides an additional Mini-Monitor function. The Mini-Monitor is a function for using the Digital Photo Frame as an auxiliary monitor. Its usage is simple as the Digital Photo Frame connects to your PC via a USB cable. This function allows you to work more efficiently at your PC by using an additional monitor. To use your digital photo frame as a Mini-Monitor, first install the Frame Manager program. (However, please note that you can use only one digital photo frame as a Mini-Monitor.)

▶ **Installing Frame Manager guide**

▶ **Frame Manager User's Manual**

> Using your digital photo frame as a Mini-Monitor.
> Using your digital photo frame as Mass Storage.
> Changing the current mode to another mode
> Adjusting the brightness
> Updating the firmware

※ **System Requirements**

- **OS** : Windows XP SP2, Vista (32bit)
- **USB** : Extended Host Controller (EHCT) for USB 2.0
- **RAM** : 256 MB or above

※ **Caution**

1. When using Windows XP, Service Pack 2 must be installed.
   It might not operate with any operating systems other than Windows XP SP2. We are not liable for problems that may occur when installing it on an operating system other than Windows XP SP2.
2. We recommend a CPU speed of 2.4 GHz or higher.
   Your digital photo frame might not operate normally if the performance specifications of your PC are lower than the recommendations.
3. Make sure to install it correctly as directed in the Installation Guide.
4. Do not use your Mini-Monitor as a primary monitor.
   We are not liable for any problems that may occur if you do not follow the directions. If it is used as a primary monitor, the screen may be blank.
5. Make sure to use the provided USB cable.
6. When operated as Mini-Monitor, All buttons except "power, ▲/▼" don't operate.
7. Move the programs displayed and used on the Mini-Monitor to the primary monitor after you have finished using it.
8. The Mini-Monitor may not operate with some video cards. In this case, set the 'Hardware acceleration' value to 'None'.
   ※ To set Hardware acceleration to None: Right-click on the Windows Desktop and select Properties from the displayed menu. The Display Properties window appears. Click Settings > Advanced > Troubleshoot tab. Move the Hardware acceleration slide to None.
9. You cannot use the Aero effect of Windows Vista while using the Mini-Monitor.
10. When using Windows Vista, some movies cannot be played using the Mini-Monitor.

: Troubleshooting

▶ **Troubleshooting**

This section lists various problems and solutions encountered by users while using the digital photo frame. When encountering a problem, first check the list below and follow the suggested action if one matches your problem. If the problem still persists, contact or visit the nearest **service center**.

Symptoms	Causes and Actions
The power does not turn on.	◆ Check the connections for the adapter cable and the power terminal of the product.
It takes a time until an image is displayed after the power is turned on. It takes a time to transit to the next photo.	◆ In case the resolution is high or the file size is large, the photo may be displayed slowly on the screen.
I have connected an external storage device but it is not recognized.	◆ Please check the connection between product and external storage. ◆ Connect to PC and check the operation state.
There is a remaining space in the Frame Memory but I cannot copy photos.	◆ Create a folder in the Fame Memory and copy your photos.
I inserted a memory card but it does not operate. I connected a USB memory but it does not operate.	◆ Check the files of your memory card. ◆ Please try a different storage device.
A portrait photo is displayed rotated to landscape.	◆ Check whether [Auto Fit Portrait Photo] of the [Settings-Options] is set to Activated.
No slideshow is played automatically.	◆ Set [Starting Mode] of [Settings-Preference] to [Slideshow].
Auto On and Auto Off do not operate.	◆ If the Auto On and Auto Off are set to the same time, they do not operate. Check the time settings.
The icon of the FrameManager is not displayed.	◆ Check whether the FrameManager program is installed. ◆ Select Start- Programs - Samsung - FrameManager to restart the FrameManager. ◆ Reboot your computer.
I pressed a button, but it does not	◆ Check whether the button lock function is activated. ◆ If you hold down the MENU button for more than five (5) seconds, the button

operate.

lock function is activated. If you press a button it will not operate.
- To clear the button lock function, hold down MENU button for more than five (5) seconds again.

▶ Terminology

Terms	Description
JPEG (Joint Photographic Coding Expert Group)	• JPEG is an image compression technology. It provides the smallest loss of all image compression technologies. It is used widely to transmit multimedia files on the Internet and for other uses. An image file formatted in the JPEG format is called a JPEG or JPG file. Usually, a JPEG file is created by taking a picture with a digital camera, by drawing on a computer, or by a graphic package and then by compressing the graphics image into the JPEG format.
SD Card (Secure Digital Card)	• An SD card is a Flash memory card the size of a postage stamp. It provides high stability and high capacity. It is widely used in various digital products such as PDAs, digital cameras, MP3 players, cell phones, and notebook PCs. Its appearance is similar to that of MMC, but the number of pins and their thickness is different. It also has a password setting function for data security.
USB Cable 1) A-B TYPE	• Use the up stream terminal when connecting to a PC. This product supports USB 2.0. An A-B type cable which is used to connect your digital photo frame to a PC is provided with the product. The A type is the USB connector used to connect to a PC. The B type is the USB connector used to connect to an external device. You can connect your digital photo frame to a PC using an A-B type USB cable.
USB Cable 2) Cable for Connecting Other Devices	• Use this type of cable when using the down stream terminal. This product supports USB 2.0. When connecting an external device to the down stream terminal, use the USB cable provided with the external device.
